| ○ 250 Sand Beads | |
| ● 43 Rust Beads | |
| ● 38 Dark Grey Beads | |
| ○ 4 Pastel Lavender Beads | |

Other:

- scissors
- clear tape
- household iron

Instructions:

1. Cut out the pattern pages.
2. Tape the images together as shown below to create your pattern. Use clear tape so you do not cover the colored dots.

FINISHED PATTERN

Now that your pattern is ready, you can begin laying out the beads.

3. Place your clear pegboard (or pegboards) on top of the pattern. Line up the pegs with the colored circles.
 4. Begin placing your beads on the pegboard following the pattern until you have filled the entire design.
 5. Ask an adult to fuse your project.
- Viola!** Your very own Perler Beads masterpiece!

Note: If the pegs are not lining up with the colored circles, check your print settings. Make sure that no scaling has been applied to the print out. It must be printed at 100%.

Only an Adult Should Iron

Fusing Instructions

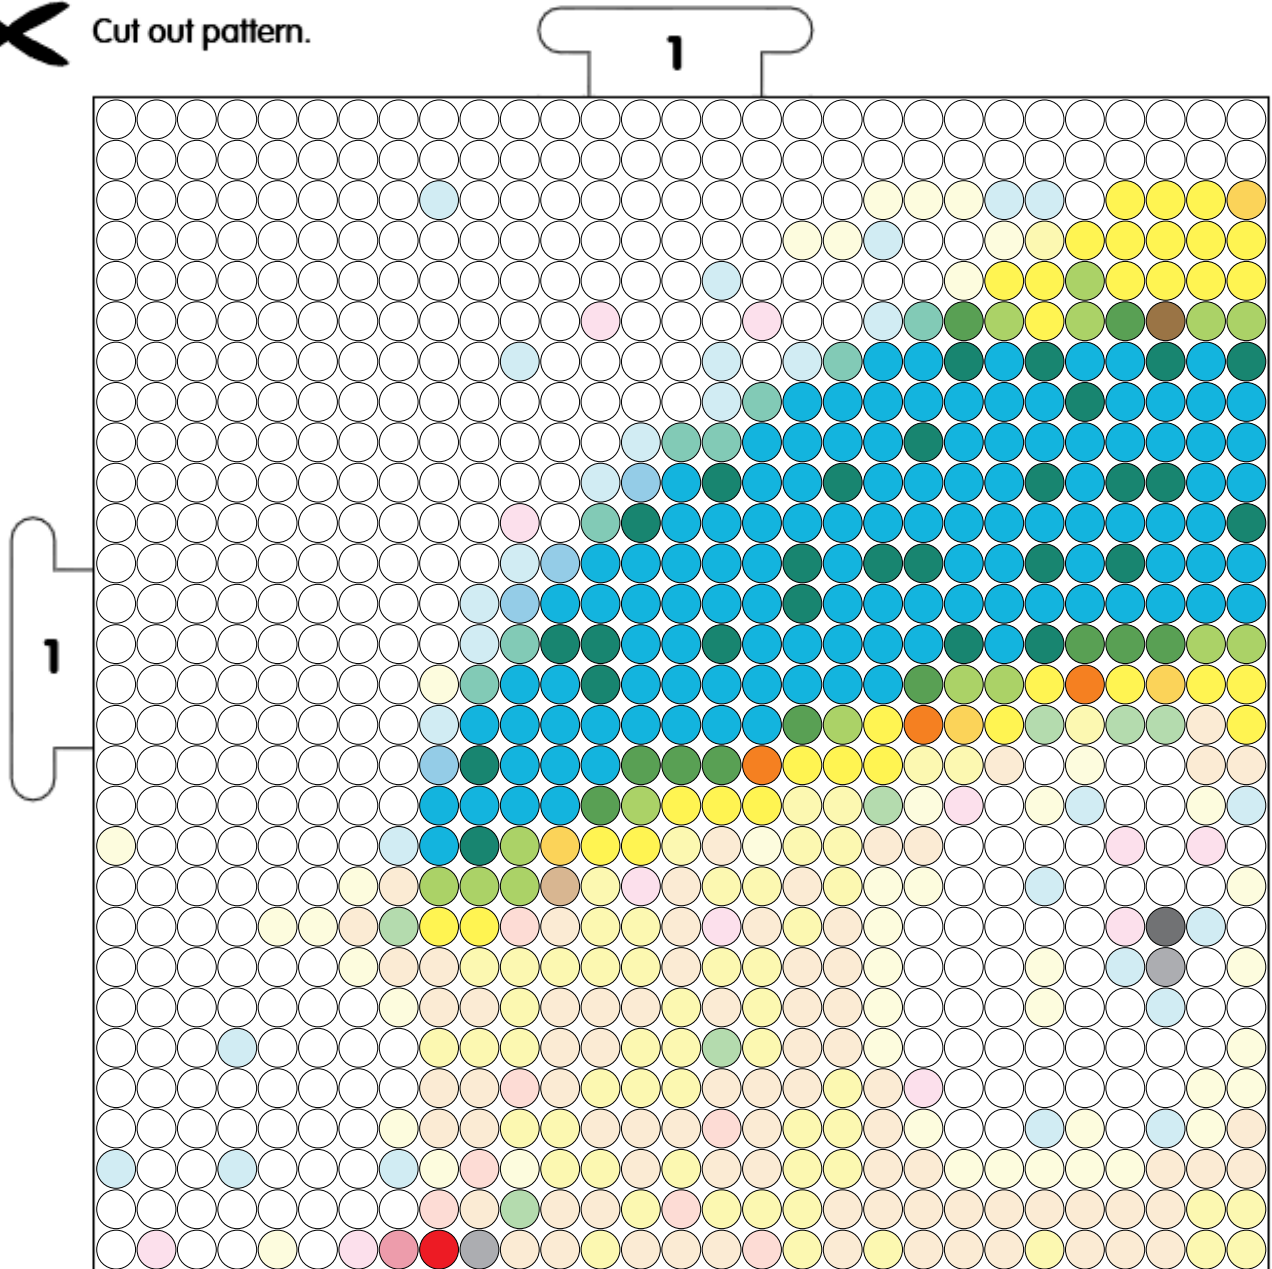

1. Place pegboard on flat heat-safe surface.
 2. Set household iron to the medium setting. Place ironing paper over pegboard. In a circular motion, begin to iron project. Let cool.
 3. Remove paper and beaded design from pegboard. Flip design over to expose the non-fused side. Repeat step two. Let cool completely.
- Note:** Beads need heat for about 10-20 seconds per side to fuse evenly. Depending on the size of project (medium/large) additional heating time may be required.
